

This Resource is meant to be a guide to finding Disney owned and operated restaurants on Walt Disney World property. This is intended to make it easier for guests with food allergies to find restaurants that stick to the standard “Disney Allergy Protocol” that has made Disney a popular vacation destination for families with food allergies.

This is not comprehensive, as it does not include most kiosks and lounges, but it does give a great baseline for anyone looking to see what places might be able to work for their families. As always, ask for an allergy chef at the table service locations, and the allergy coordinator (with the ingredient binder) at all quick service locations. If you have multiple family members with allergies, or one person with multiple allergies, I highly recommend reaching out to the Special Diets team. You can reach them at Special.Diets@DisneyWorld.com 14 days prior to your arrival.

disney owned & operated
